2. From the **Report Category** drop-down box, select the “**Employee Reports**” option and click on the “**Filter**” button.

B

From the list, select the “**Current Vaccination Status Report (Salaried Only)**” and click on the “**Run Report**” button.

C

Reports

Report Category: **Employee Reports** Description: [Filter](#)

This listing displays reports that you can run based on your specific security rights.

Use the Report Category filter feature to limit the listing to a specific category of report, and enter a Description (full or partial) to help narrow down the search when you click on the Filter button.

Note: ** indicates that a report's information is based on the prior day's work.

3. The following parameters are needed to generate the report:

- **Process Case Label** Enter a title for the report.
- **Location ID** This field should default to the location that you have access rights to. If it's blank, enter the ID number of the location you want the report to be generated for.

Tip: Click on the flashlight icon to search (by Location ID or Description) for the location(s) that you have access to.

Note: Currently this report only contains the statuses of salaried employees. A report that includes casual employees is being developed.

When you are ready, click on the “**Submit Parameters**” button. D

4. The report will be generated as a Microsoft Excel file in a new window or pop-up.

Depending on which internet browser you are using, you may see windows similar to the ones below:

Google Chrome:

Firefox:

Note: You may have to adjust your internet browser's settings to allow pop-ups.

5. Follow the on-screen prompts to open the file.
6. Click on the **"Run Reports"** tab to return to the **Reports** screen.
